nursing care & rehabilitation

Meet the Friendly Home Medical Staff

Medical Services

The Friendly Home's medical staff, including the Medical Director, is comprised of a group of medical professionals who are dedicated to the care and rehabilitation of the elderly and infirm. The team strives to integrate the modern advances of health care today with the concern and compassion of our forefathers in medicine. Above all, we are here to serve you.

The medical office welcomes your calls at (585) 789-3020. You may leave a message at any time. E-mail addresses for the medical staff are listed below. While we welcome your e-mail communications, please contact us by phone for any urgent problems. Also remember that e-mail is not secure; if this is a concern, a phone call or fax would be more secure. General e-mails can be sent to Dr. Schabel, the Friendly Home's Medical Director, at: sschabel@friendlyhome.org.

Specialty Services (Dental, Optometry and Podiatry Services)

Other medical specialists, including a dentist, optometrist, and podiatrist visit the Home on a regular basis. Members are billed directly by the provider for these services. The dentist or dental hygienist will examine your teeth, gums and mouth within the first twenty-one days after admission, and annually if you do not have a regular dentist. A professional fee is charged if emergency or corrective services are rendered. A dental suite is also on premises. Appointments for the podiatrist and optometrist are made by the Member or family through the neighborhood secretary.

Below are some frequently asked questions regarding Members' medical care

Who is my doctor?

Unless other arrangements are made, you will be assigned to one of the Friendly Home's attending physicians when you are admitted. You are also assigned to a nurse practitioner or physician assistant. Together they will provide all your medical care at the Friendly Home. The names and contact information for your physician and nurse practitioner or physician assistant will be provided. Additionally, the nursing staff always knows who is taking care of you. Medical services included in the daily charge are those provided by the Home's physicians and consulting psychiatric team.

How often will I be seen by the medical staff?

The medical staff will visit you within the first week after admission and perform a comprehensive evaluation, which includes a review of all the available medical records and current treatments. After admission, the medical staff will visit you whenever needed, and not less than every month for the first couple of months. Once you are settled in, visits occur no less than every sixty days.

What happens if I get ill?

Licensed nurses evaluate you several times a day and any problems requiring medical attention are reported to the medical staff. If your illness requires closer monitoring than can be provided at the Friendly Home, hospitalization may be recommended. A member of the medical staff is always available by phone in case of an emergency.

When is the medical staff at the Friendly Home?

A member of the medical staff is at the Friendly Home every business day. The nurse practitioner and physician assistant are available during normal business hours and can respond to your medical problems quickly. The physicians each spend one or two half-days per week visiting their patients who need to be seen.

Can my personal physician take care of me at the Friendly Home?

Yes, if your physician is willing to do so and can meet the standards for the facility. Your physician should contact the Medical Staff Office at (585) 789-3020 and request an application. You may choose to continue with your own physician(s) at your expense. Private physicians must be credentialed by the Friendly Home and abide by Home by-laws.

What is a Nurse Practitioner?

A nurse practitioner is a nurse who has received extensive training in the diagnosis and management of diseases and other medical problems. Special certification and licensure is required.

What is a Physician Assistant?

Physician assistants are health care professionals who are trained and licensed to practice medicine with physician supervision.

Can my family meet with the medical staff?

Yes, they can. You or your family member may call the Friendly Home Medical Staff Office at (585)789-3020. In many cases the nurse practitioner/physician assistant can meet with your family the same day.

Can I change my physician, nurse practitioner or physician assistant?

Yes, you can. Tell your social worker you would like to change and it can usually be arranged within a couple of weeks.

Should I complete a Health Care Proxy or Living Will?

YES! You really should, and this advice comes from every member of the Friendly Home's clinical staff. We also recommend completing a MOLST (Medical Orders for Life Sustaining Treatment). Your Social Worker can get you the necessary forms and help you complete them if needed. The medical staff will also be happy to discuss them with you, particularly as they relate to your health status.

Meet the Friendly Home's Medical Staff

Scott L. Schabel, M.D., C.M.D.

Medical Director

Friendly Home Medical Staff Office: (585) 789-3020

Office: (585) 348-8286

Secure Fax: (888) 506-8599

Email: sschabel@friendlyhome.org

Office Address: 1415 Portland Ave., Ste. 200, Rochester, NY 14621

Dr. Schabel is a graduate of Boston University School of Medicine and completed his residency training in internal medicine at the University of Rochester, where he remains on the faculty as a clinical assistant professor in medicine. He is board-certified in internal medicine and a certified medical director. His practice is devoted solely to the care of nursing home patients. Dr. Schabel joined the Friendly Home staff in 2002 and is on the staff at Rochester General Hospital. He is a Fellow of the American College of Physicians, and the American Medical Directors' Association. In addition, he has served on the board of directors of the New York Medical Directors' Association since 1998.

Seema Dahake, M.D.
